Introduction

WELCOME TO POWER AND CONTROL COMPANY!

Power and Control Company - an 100% Saudi Company, beginning from the platform of product supplying for the panel builders, with an experience of 20 years in carrying out different activities in the field of electrical engineering.

After ten years we found ourselves very dedicated to support electrical panel builders and contractors in low voltage with vast variety of brands and OEM products. With credits to our specialized crew, we are confident enough to portray our immense dedication to our customers with service and graded products. This is a company worth investigating and be as acronyms for an uninterrupted business relation

PNC is glad to invest a suffice amount of efforts and resources that help improvising the core business area that brings practical solutions to the Saudi Market. We are also proud to claim an excellent record of business growth. Just as importantly, we believe that treating our customers with the best quality of products and services is what resulted in our business success!
